

**CORRIGENDUM No. 01 DATED 23.07.2020**

**To**

**TENDER NO. SJI4642P21**

**1.0** This **Corrigendum** has been issued to share the following **Clarifications** with the bidders:

<b>Sl. No.</b>	<b>Queries</b>	<b>Clarifications by Oil India</b>
1	Quantity as per Tender Document is 568M3 only. This is a very small quantity and the conversion mentioned by you 1 lac gallons= 378.54 m3 seems wrong or we are unable to understand. According to us, 1 gallon= 2.637 m3. So, you are requested to clarify on the above.	Our requirement is of 1.5 lac gallon.  The conversion is <b>1 gallon (US)= 0.0037854 M3.</b>  Therefore 1.5 lac gallon: 568 m3.
2	What is the minimum quantity required by you at a single time?	Minimum order quantity in one lot is usually 4000 gallon.
3	What is the frequency of requirement?	Monthly 2-3 times.
4	Your location is Baghewala and Dandewala if any other then specify, so we can calculate our transportation cost.	At present OIL's wells are located in Baghewala and Dandewala in Jaisalmer district. However as per special notes Point no:6 of NIT OIL may ask the successful bidder to supply the materials to any other locations within its operational area in Rajasthan.
5	Ones our vehicle come at your side then how much it's unloading time period.	Usually 1 day however one additional day may be required in case of any other issue like BSF permission etc.

**THE ABOVE IS FOR INFORMATION OF ALL BIDDERS. BIDDERS SHOULD NOTE ALL CLARIFICATIONS AND ORIGINAL NIT WHILE QUOTING.**

2.0 All the Terms & Conditions of the Bid Document remain unaltered.
