Recertification of Integrated Management System under standards ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018

the validity of present ISO certification of OIL's Pipeline department has expired on **3<sup>rd</sup> September 2019** and the terminology "re-certification" of the Integrated Management System will no longer be applicable . Hence the vendor has to certify the Integrated Management System afresh.

In view of above, the subject of the job to be carried out as Certification of IMS instead of re-certification of IMS. against Tender document No. GCO 1919 P20. The subject of the tender should be read as under :
